

**For Immediate Release**

**First United Door Technologies Recognized by Arizona Business Magazine**

**Tempe, AZ, United States, April 21, 2008** – First United Door Technologies has been named the number three Manufacturing Company (Non-electronic) in the state. Ranking Arizona’s “**The Best of Arizona Business 2008**” is the outcome of the largest business opinion poll in Arizona and identifies more than 200 different business and leisure categories based on quality of product, service, and customer satisfaction. Arizona Business Magazine publishes the ranking yearly, with polling from the previous year.

“We are honored to be recognized as one of the top manufacturing companies in Arizona, and are proud to be recognized by Arizona Business Magazine,” said Earl Rivard, Vice President of Marketing. “This recognition demonstrates our reputation in the business community and among our customers.”

First United Door Technologies is one of the fastest growing garage door companies in the Southwest. The company offers a wide range product line of residential and commercial garage doors manufactured from steel and wood. They were the first garage door manufacturer to pioneer the Steel Carriage Door (Steelhouse<sup>®</sup>) nearly five years ago. Innovation and forward-thinking ideas are the cornerstones of the company and have prompted numerous patents, with several more pending. Understanding the needs of builders, architects, designers, developers and homeowners, their product is all about curb appeal, quality and diversity within the communities they build, design and live.
