

**FOR IMMEDIATE RELEASE**

**1<sup>st</sup> United Door Technologies Announces New Distribution Center Opening**

*Garage door manufacturer expands its presence in Southern California with new distribution center in San Diego, CA.*

**Tempe, AZ – May 5, 2008** - 1<sup>st</sup> United Door Technologies (FUDT) will open a new distribution center (DC), in San Diego, CA on May 18th. This is the fourth regional distribution center to be opened in California. The new facility will distribute residential and commercial sectional garage doors, operators and hardware, greatly improving product availability and expediting delivery times.

Located in the Miramar neighborhood in the northern part of the city of San Diego, the area consists of distribution, warehouse, office, and Miramar Road frontage retail related space. Miramar is a prime location due in part to its central location, size, and traditional industrial characteristics. The company is pleased to invest in the San Diego community with this new facility.

Located at 8557 Production Avenue, San Diego, CA 92121, the distribution center will greatly improve logistics and service for our customers. An open house will be held on May 15<sup>th</sup>, from 10:00am to 3pm, to introduce garage door dealers to FUDT products, services and support programs. It will also be an opportunity to meet FUDT staff and representatives from various garage door industry vendors.

First United Door Technologies, founded in 2000, owns and operates its corporate office and manufacturing facility in Tempe, Arizona and operates other Southern California distribution centers in Rancho Cucamonga, Chatsworth and Orange County.
